RIN: 2070-AJ54

Publication ID: Update 2017

Title: Nanoscale Materials; Chemical Substances When Manufactured, Imported, or Processed as Nanoscale Materials; Reporting and Recordkeeping Requirements**Abstract:** EPA issued a final rule on January 12, 2017 (82 FR 3641) establishing reporting and recordkeeping requirements for certain chemical substances when they are manufactured or processed at the nanoscale as described in this rule. Specifically, EPA is requiring persons that manufacture (defined by statute to include import) or process, or intend to manufacture or process these chemical substances to electronically report to EPA certain information, which includes insofar as known to or reasonably ascertainable by the person making the report, the specific chemical identity, production volume, methods of manufacture and processing, exposure and release information, and existing information concerning environmental and health effects. This rule involves one-time reporting for existing discrete forms of certain nanoscale materials, and a standing one-time reporting requirement for new discrete forms of certain nanoscale materials before those new forms are manufactured or processed.**Agency:** Environmental Protection Agency(EPA)**Priority:** Other Significant**RIN Status:** Previously published in the Unified Agenda**Agenda Stage of Rulemaking:** Final Rule Stage**Major:** No**Unfunded Mandates:** No**CFR Citation:** [40 CFR 704](#)**Legal Authority:** [15 U.S.C. 2604\(a\)](#) [15 U.S.C. 2607\(a\)](#) [Toxic Substances Control Act](#)**Timetable:**
